

Project Management Intern (m/f/d)

Setting

At midge, we're reimagining the way healthcare systems work. You'll have the chance to be part of that change within a diverse and fast-growing team. We are creating the exciting opportunity for you to leave your footprint.

midge medical is developing diagnostic devices based on blood and other body fluids that are so easy to operate that they can be used by consumers as well as by professionals. The complete digitization of the testing procedure is at the core of our vision. You can contribute to our team as Project Management Intern and be at the center of all organizational issues around our medical product development activities.

As a Project Management Intern, you will

- work closely together with our Project Management Team in order to give all our projects structure,
- facilitate communication in project teams,
- report project progress to stakeholders,
- prepare project progress documentation together with project teams,
- keep project plans up to date,
- help to identify project risks and to mitigate them,
- have the possibility to write your thesis with us.

Must-Have Assets are

- You love to help finding solutions,
- You like bringing structure that helps people
- You are familiar with Microsoft Excel.

Preferred

- You have already had first contact with Project Management activities,
- You have already worked with JIRA and Confluence.

Place of work

Berlin, Germany

When can you start?

As soon as we have agreed that we are a match!
